*Abrakadoodle is an international art education program dedicated to developing creativity and innovation in children. Check out our classes, camps, in-school field trips and artrageous birthday parties online at [www.abrakadoodle.com](http://www.abrakadoodle.com). Don't forget to tell a friend about Abrakadoodle!*

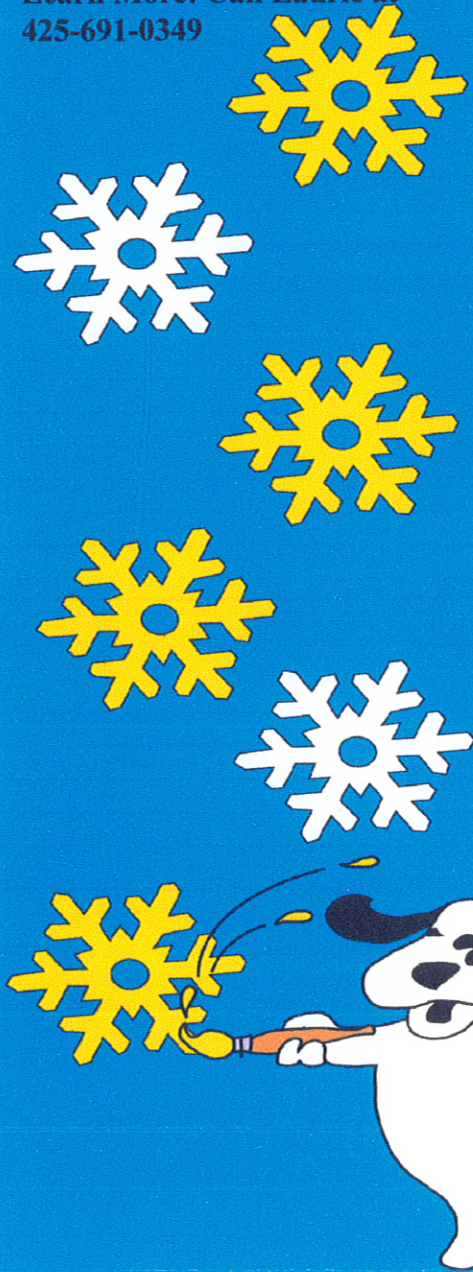

**Join us this winter and have fun learning new techniques and creating unique art!**

### Plug Into your Imagination!

And explore new mediums such as video game art, rice painting, newspaper watercolor and a sculpture made with straws! Without leaving the country our imagination will plug us into Austria, Germany, Switzerland, France and India. We will visit a lollipop garden. We will play a watercolor piano. We will celebrate the Festival of Lights and more.

### What Story does your Artwork Tell?

We'll use Model Magic to create our own storyteller dolls that have traditionally been used to pass down stories from generation to generation. See their circular mouths that are always narrating a special story! Speaking of storytellers, we'll learn about Patrick Benson, the award-winning illustrator of "Owl Babies" as we create illustrations of our own soft owl babies. Our artwork takes on a 3 dimensional effect with shapes that pop off the page.
